SECRET **GARDEN** REVEALS ITS SECRETS.

Somewhere deep under the earth there blooms a Japanese cherry tree in a hidden cave. In the middle of a rough river bed a delicate bonsai tree grows. Deep in the secret forest a dense flock of storks huddle together. Fantasy or reality? For SECRET **GARDEN**, HOOKED**ON**WALLS® headed into the inhospitable nature in search of tranquillity, balance and harmony. The start of a magical fairy tale and the harbinger of a spring rich with expectation ...

Between twilight and shadows a natural beauty gradually emerges. Hidden spots reveal their secrets, the raw side of nature announces the blossoming of new life. For its 10th collection of wallcoverings SECRET **GARDEN**, HOOKED**ON**WALLS® took its inspiration a million leagues away from the civilised world. From light oriental blossoms and storks, to natural shades such as Ivory, Shadow and Forest: Nature is a yet again an inextricable part of contemporary wallpapers.

SECRET **GARDEN**

“SHADOWS REFLECT,
A SUNLIGHT BEFORE THE
SKY WENT BLACK.
SECRET GARDEN,
THE POWER OF NATURE
IN HARMONY WITH THE
ELEMENTS.”

From East to West | Blossom

Inspired by Japanese cherry blossoms, Blossom takes you on a journey to the Far East and back. It is no coincidence that blossoms are the symbol for growth and life. The refined drawing exudes tranquillity and harmony and takes you away from everyday reality. Spring shades in pure combinations bring the pattern to life. Night colours the night with a dark carpet of flowers, Ice lays a subtle layer of blue dew over the walls.

Blossom: night, chalk, ice, trunk, shadow, mushroom, rock, ivory

In decorative company | Birds

Storks are the ancient bearers of overwhelming joy. With their gracious shape and elegant wings, these creatures draw the attention of all who have the good fortune to see them. The sheen of the print enhances their ethereal appearance, the detail in the drawing and the intriguing pattern tantalise the imagination. There is a striking statement in the strong colours, refined accents and gentler shades.

Birds: night, ice, trunk, dust, ivory

Zigzag with a sheen | Woody

From close up we see a subtle weave of wood, from far away a fun zigzag pattern. Structured in different layers of patterns, Woody looks as though it has been embroidered on the paper. A play of natural patterns and stylised forms change the effect of this design depending on the angle from which you look at it. The finish of metallic inks adds extra sheen to this design.

Woody: night, linen, trunk, dust, beige

Timeless refinement | Bonsai

This botanical drawing literally adds depth to the wall: during the printing process, the paper is embossed. With the bonsai as the symbol of Eastern essentialism, this simple design is removed of all 'noise'. What remains is a pure drawing that succeeds in restoring interiors to an oasis of refinement and tranquillity.

Bonsai: silver, gold, pearl, black

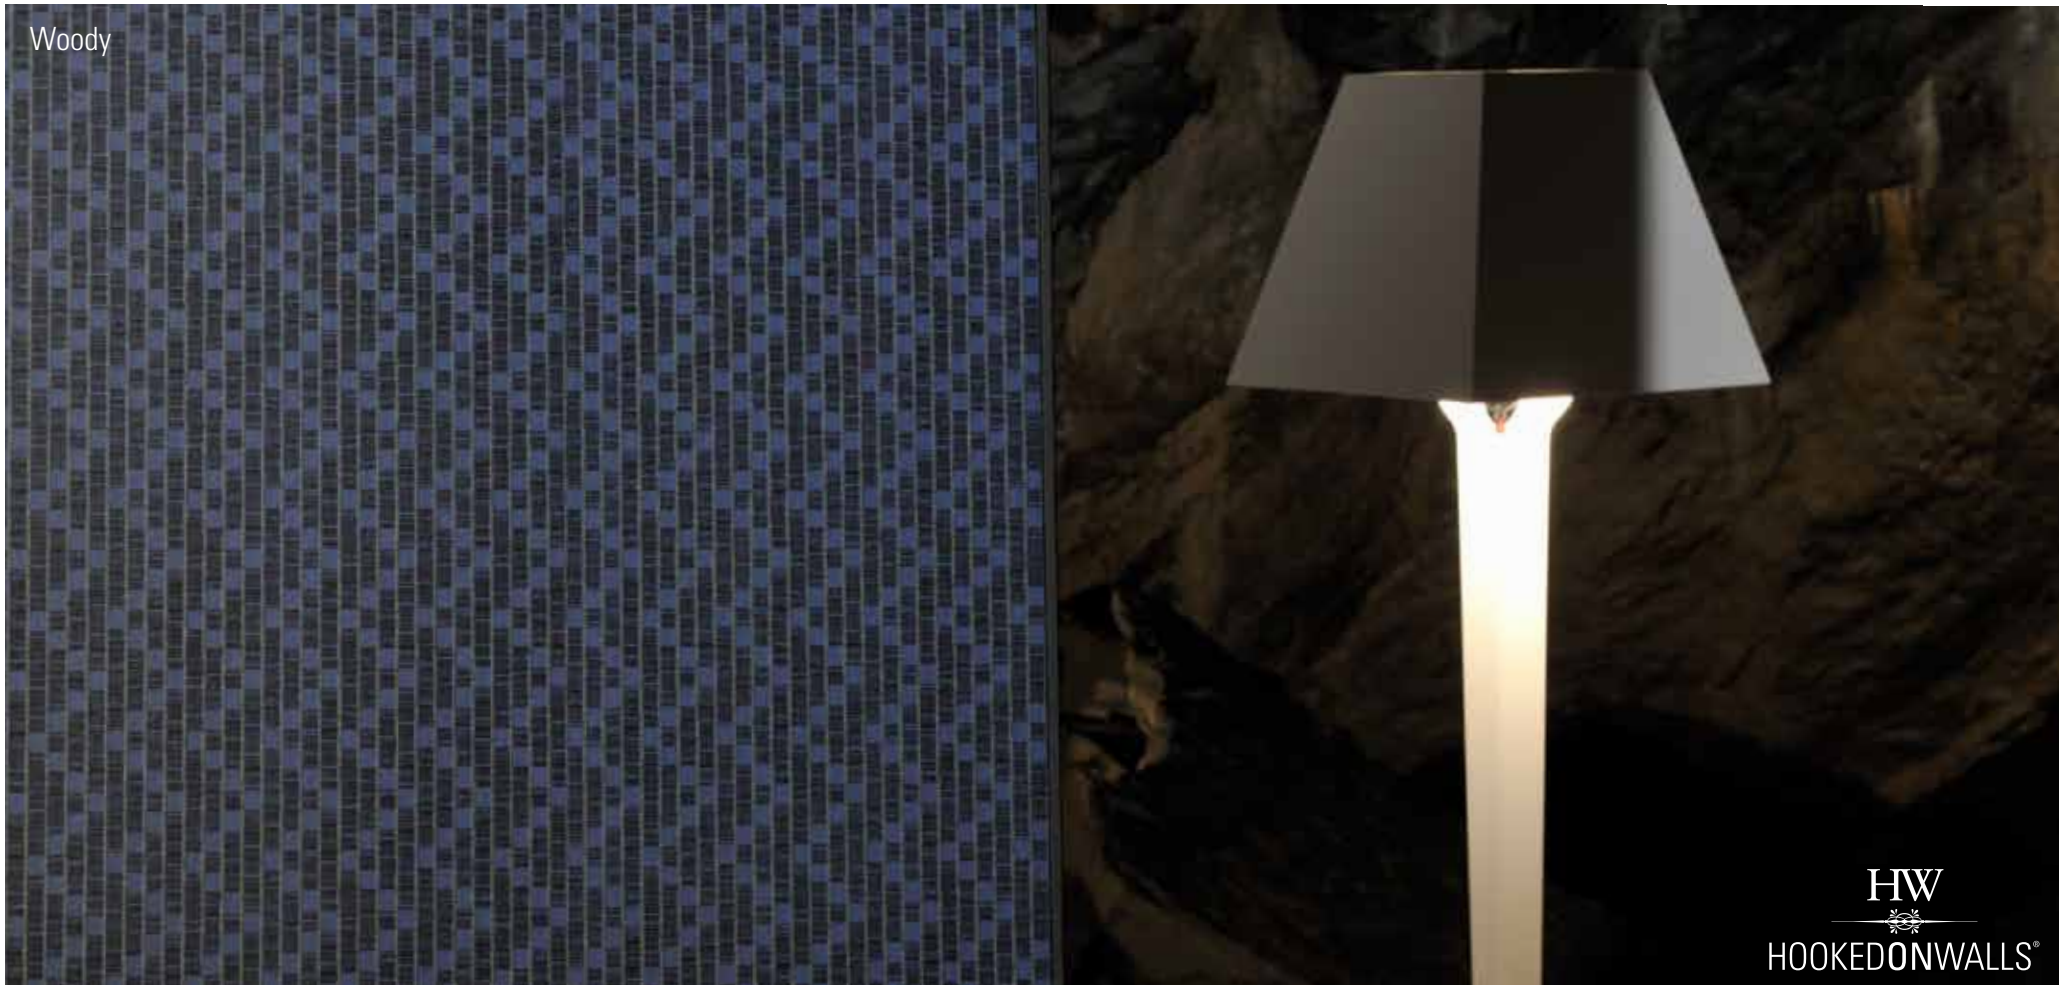

Weathered silk | Silk

Understated luxury and a touch of exclusivity characterise the image of Silk. This design that is a little weathered and has no graphic eye-catcher or pattern, comes in particularly stylish colours. It is a total haven of peace compared to other designs. Utterly refined, but subtly so. A little bit like a 'Secret Garden' ...?

Silk: sky, fog, copper, night, chalk, linen, water, trunk, taupe, sunbeam, shadow, rock, melon, anise, forest, mushroom, autumn, chilli, chestnut, smoke, ivory, beige
